

# SIMATS ENGINEERING (SAVEETHA SCHOOL OF ENGINEERING)

Department of Computer Science and Engineering

## ASSESSMENT TOOL 3 – Peer Review

|                  |                                                                                                                                               |               |                                 |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|---------------|---------------------------------|
| Course Code:     | CSA0305                                                                                                                                       | Course Title: | Data Structures                 |
| CO Assessed:     | CO2 – Manipulation (BL3, BL4)                                                                                                                 | Assessment:   | Assessment Tool 3 – Peer Review |
| Weightage:       | 30% of CIA                                                                                                                                    | Total Marks:  | 100                             |
| CO2 Statement:   | Implement linear data structures such as stacks, queues, and linked lists, and analyze the efficiency of linear and binary search techniques. |               |                                 |
| Student Name:    | S.Roshni                                                                                                                                      | Reg. No.:     | 192525185                       |
| Section / Batch: | AI&ML                                                                                                                                         | Date:         | 24/07/2026                      |

### Code of Conduct

I S.Roshni(192525185)\_\_\_\_\_ (Name / Reg No)  
certify that this submission is my original work and that I have adhered to the guidelines specified for this assessment. I understand that any violation of academic integrity rules will result in disciplinary action.

Signature of the Student: S.Roshni \_\_\_\_\_

### Instructions

- This assessment contains peer review with individual presentation. Total: 100 Marks.
- Students should answer technical questions from peers and faculty.
- No negative marking. Unanswered questions carry zero marks.
- Students can use PowerPoint/Whiteboard/Live Coding/Demonstration for presentation.

| Section / Topic       | Focus                     | Q Nos     | Marks |
|-----------------------|---------------------------|-----------|-------|
| Linear Data Structure | Linked List, Stack, Queue | 1         | 100   |
| GRAND TOTAL:          |                           | 100 Marks |       |

## Annexure A – Peer Review

### Rubrics for Calculation

| Criteria                            | Weightage | Level 4 – Exemplary                                                                                             | Level 3 – Proficient                                      | Level 2 – Developing                                   | Level 1 – Beginning                       |
|-------------------------------------|-----------|-----------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|--------------------------------------------------------|-------------------------------------------|
| Understanding of Concept            | 20        | Demonstrates complete understanding of the selected data structure/search algorithm with accurate explanations. | Minor omissions but concepts are mostly correct.          | Partial understanding with noticeable conceptual gaps. | Unable to explain the concept correctly.  |
| Demonstration                       | 20        | Demonstrates all operations correctly using suitable examples or live coding                                    | Demonstrates most operations correctly with minor errors. | Demonstrates limited operations with several errors.   | Demonstration is incorrect or incomplete. |
| Presentation & Communication Skills | 20        | Organized, confident, clear explanation with effective visual aids.                                             | Good communication with minor presentation issues.        | Moderate communication; lacks organization.            | Poor communication & presentation.        |
| Question Handling                   | 30        | Answers all technical questions confidently with correct reasoning.                                             | Answers most questions correctly.                         | Answers some questions with partial understanding.     | Unable to answer technical questions.     |
| Time Management & Organization      | 10        | Completes presentation within allotted time with smooth flow.                                                   | Minor deviation from time.                                | Significant time management issues.                    | Presentation poorly managed.              |

## CSA0305 – DATA STRUCTURES

### PEER REVIEW 1

# Uses of Queue in Hospital Management system

#### PRESENTED BY: (Batch No. 7)

S.Roshni(192525185)

Soppa Jaswanth(192525214)

Sree B(192524023)

Sumatha Sri S (192521097)

Thammiseti Raju(192465038)

#### GUIDED BY:

Dr. Uma Priyadarsini P.S,  
Professor, SIMATS Engineering
